Carpooling

Now that gas is over a \$1 a gallon, this is the best time to join or create a carpool. At KIH, we've had a carpool program since 1974 as most of you know. "Some have been carpooling for years," says Mr. House, "and now there is a marked upsurge of interest in sharing rides."

All it takes is a walk to personnel and ask for June Davis or Michelle Hershaft or call x31611. They will give you a simple form to fill out, asking questions like, "Do you wish to join an already existing carpool or create one." You're also given a map, indicating where you live and showing the nearest cross streets.

You can save roughly \$600 or more a year on gas. Think about it. It's worth looking into.
